measure here
for **bracelet**

A **bangle** is a solid, one piece, band worn on the wrist, that does not have a clasp or opening, while **bracelets** do have a clasp, are flexible, and can be either circular or elliptical.

To determine **bracelet** size, measure your wrist size. For a looser fit, add a few mm/cm to the size.

For **bangles**, measure the widest area of your hand so you'll be able to easily slip the bangle off and on your hand.

Important! When you print the document, make sure you specify **actual size**, in the print instructions so that the measuring tools print out accurately.

Size	(in)	(mm)
Small (S)	2.5 x 2	63.2 x 50.7
Medium (M)	2.7 x 2.14	68.4 x 54.5
Large (L)	2.9 x 2.3	73.7 x 59.2
Extra Large (XL)	3.1 x 2.5	78.9 x 63.4
